NHL Hockey '94 from Electronic Arts is a highly popular simulation of the fast moving ice game, and is deemed the best of its type. However, if you find there's not enough excitement in an ordinary hockey match, then **Mutant League Hockey** could be for you. EA have basically taken their NHL game, turned all the players into horrible looking mutants and added lots of violence, excitement and humour. Fans of the sport may not like the way EA have transformed this hockey game, but the idea is about having lots of fun.

Mutant League Hockey allows you to select a four-stage tournament or a one-off match, played on one of five levels of aggression. Right from the start your aim is to play dirty, as fair play gets you nowhere! Each player is equipped with various weapons to attack the opposition. When fighting occurs a one-to-one 'beat-em-up' screen appears showing a close-up of the action. Each team also has a set of special moves they can perform, ranging from bribing the referee to implementing an exploding puck to dispose of an opposing player.

The ice rinks also provides a certain amount of danger; some have flames shooting out of the ice, whilst others are riddled with holes.

Apart from all the mayhem there's still a hockey game within **Mutant League** and these additions to the gameplay make it that much more exciting. If you liked what the Bitmap Brothers did with **Speedball 2**, then you're certain to like this fast moving and exciting hockey game. - DG.

SENSIBLE SOCCER CD

game type: **SPORT SIMULATION**
1-2 PLAYERS

Everyone knows that the Mega Drive version of **Sensible Soccer** has been constantly overshadowed by the brilliant graphics of **FIFA Soccer**. However, **Sensible Soccer CD** is quite frankly the most playable football game. The graphics and ability of the players to manoeuvre allows for thrilling goals to be created; you can blast the ball from the half-way line with enough curve to bend it past the goalie. Scoring like this adds great reality value to the game and at times you almost feel compelled to jump up and shout, 'G-o-a-l!'

So, what's so different about the CD version compared to the cart? Well, let me start by saying the actual gameplay remains the same. However, the main improvements, as expected, are all cosmetic with the addition of CD film sequences.

This includes a very srazzy intro sequence which shows a texture-mapped football pitch swirling around the screen. You also get a helicopter tour of Wembley Stadium (or the Bowl Arena in the US for internal onat matches), before playing each match which all looks very impressive.

Sony have truly gone to town with the sound effects and music on the **Sensible Soccer** CD. Various dance tracks play during the menu screens, but what's really appealing are the new crowd effects, which were recorded at a live match (and no doubt edited like crazy). The, 'One-til, one-tils', cheers and 'Oooohs' are all here! Another bonus for Mega-CD owners is that it's £5 less than the cart (record companies take note!). So if you don't own the cart but do possess a Mega-CD, go forth to your local games store and pay the ultimate in footballing action! - DG.

Pete Sampras served over 1,000 aces and won Wimbledon and the US Open in '93. He finished the last season as number one in the world and earned a record \$3.6 million dollars (a record for any single season). He may be one of the world's best players, but is **Pete Sampras Tennis** any good? Well, for a start the game cartridge features two extra built-in joystick ports. Called the J-Cart, it allows up to four people to compete at the same time, providing you have four joypads. Previously simultaneous four player games from companies such as EA required you to buy a 4 player adaptor, but with this you're getting an adaptor completely free.

The initial menu gives you a choice of playing a Challenge (single match), a Tournament or a World Tour. A Tutorial option gives you the chance to familiarise yourself with the controls before playing.

According to the manual there are two mystery options included, but they remain a mystery as I haven't discovered them yet! On selecting the Challenge you are asked to choose which player(s) you want. There are 30 female and male players in total, each one showing not only their ranking position but also whether they are left or right handed. However, Pete Sampras is the

only really recognisable player in the game.

Once play is under way, you'll hear two superb speech and the realism of the whole thing. For example, if you're near the end of a match and the crowd starts shouting, the umpire will say, 'Quiet please. Thank you!'. The game plays extremely well and, using the various after-foam shots, you can gain great control and placement of the ball.

The graphics and animation of the players is excellent with over 4,000 frames of animation you can perform dives, jobs and many other impressive moves. **Pete Sampras Tennis** is the best tennis simulation I have played on the Mega Drive. Get your friends round and enjoy a thrilling doubles match! - DG.

One of this summer's hot releases for the Mega Drive is **Pete Sampras Tennis** from Codemasters, the same company that brought you *Micro Machines*. This impressive new tennis game, featuring champion player Pete Sampras, was unveiled at the recent European Computer Trade Show and served up a smash to anyone who dared take on the man himself.

Among the first to accept the challenge were pop groups E.Y.C., who were taking time out to promote their latest album and single, and Jesus Jones.

E.Y.C.

Cart which allows up to four people to play simultaneously, is on sale now. However, it looks as though a fierce court battle could develop between Codemasters and Electronic Arts, who have announced *Sports Tennis* (a working title) for the Mega Drive.

Featuring singles and doubles matches over 16 tournaments and four surfaces, *Sports Tennis* boasts a high level of detail

Anyone for Jesus Jones? Ian Baker & Mike Edwards

E.Y.C. band member Trey Parker said: "This is a mean game! I'm no good at actually playing tennis, but I can be a World Champion with this and I love the way you can make the players dive for the shots".

Ian Baker, from Jesus Jones, also enjoyed the game commenting: "It's so easy to get into - it's great! I just picked up the control pad and immediately knew my way round the court. It's one of the most enjoyable games I've played for a long time".

Pete Sampras Tennis, featuring the revolutionary J-

including chalk dust, squeaky trainers heard on the indoor court, and

even arguing with the umpire! The players are Rotoscoped, which means their movements are drawn from film of real people performing. EA claim that *Sports Tennis* is simple enough for anyone to pick up and play, but flexible enough to provide a long-term challenge. Predictably, *Sports Tennis* will be compatible with EA's 4-Way-Play adapter for simultaneous four-player fun.

Turn to this issue's *Review Zone* for STC's low-down on *Pete Sampras Tennis* on the Mega Drive.

Sega Europe's latest announcement is that AB Electronics in South Wales are to produce the millionth Sega game cartridge.

Since 1993 over 30 titles have been produced in Wales for sale in the UK and Europe, including top selling game titles such as *Aladdin* and *Genie*. In addition, AB Electronics exclusively produce all of Sega's Mega Drive games for European sales with plans underway to extend production to Game Gear games by September.

Frank Herman, Managing Director of Sega Europe remarked: "Our policy is to improve our service to the customer by producing games in Europe to eliminate the expense and delay of shipping to Japan. We also reduce our exposure to currency fluctuations, while continuing to produce games to a high standard with short lead times. The millionth games to be produced in Wales shows how this policy has already proved successful with video cartridge games. We look forward to increasing our European manufacturing for CD and cartridge games in the future".

ROCKIN' GOOD NEWS

The world's first stone-age speedway simulation

In an attempt to inject new life into an old idea, Core Design has taken the motorcycle racing simulation back into the prehistoric age. The result is **BC Racers** (formerly *Chuck Rally*) for the Mega-CD and the Mega Drive 32X (when it's released).

Millionaire playboy caveman Millstone Rockafella has organised a competition to win the Ultimate Boulderdash Bike. The race takes place over eight stages, with four levels of difficulty and a selection of characters, including hunky hero Cliff Hanger and Roxy (his girlfriend), Axie Roads and Willy Mammoth, Brick Jagger, Gary Gritta and, of course, Chuck Rock and his son.

The competitors ride in pairs on dinosaur-driven motorcycles called Dirtybikes (with side-cars to control, too), and dotted around the tracks are obstacles such as rocks, lava pools and

sleeping dinosaurs. Power-ups such as Dino Food fuel the bikes' living engines.

With the Mega-CD version of **BC Racers**, two players can ride the same Dirtybike, one player handling the bike itself, the other controlling the side-car (on the Mega Drive 32X there's also a split screen so two players can race against each other).

BC Racers will be released for the Mega-CD in October and for the Mega Drive 32X in February 1995.

SHORT BURSTS

MORE LOONEY TOONS

Four of our favourite Warner Brothers cartoon characters will be appearing on the Sega systems before the end of this year.

The Tasmanian devil strikes again in a sequel to *Taz-Mania* entitled *Taz in Escape from Maro*. Also starring is Marvin Martian.

The game will be available for the Mega Drive and Game Gear in September.

The cartoon bird's next adventure will be a sequel to *Taz-Mania* called *Taz-Mania 2*. This time around the bird will be escaping from the Mega Drive 32X. The game will be available for the Mega Drive 32X in September. The game will be available for the Mega Drive 32X in September. The game will be available for the Mega Drive 32X in September.

Toe Jam & Earl 2

TOE JAM & EARL 2

Some boomers have found the mega-

groovy Toe Jam & Earl 2 game to be quite troublesome.

Admittedly, Funkatrea is not an easy place to catch those Earthlings, but don't fret - help is listed below to enable you to become truly funky masters!

Also, don't worry if you're having difficulty getting onto the later levels. Also listed below are several level passwords to get you going.

AZTEC ADVENTURE

Aztec Adventure is a simple little shoot-em-up which is enough not terribly exciting but can prove a testing challenge if that's what you're after. It's the kind of game that can prove frustrating unless you have a bit of help - enter STC...

For a nifty level select cheat, before the scroll mode on the title screen press Up five times. When the character throws the cash, press Right three times. Wait until everybody moves to the right and press Left then Down. You'll now be able to access the stage select.

On the title screen press Up Up Down Down Left Right B and A on the joystick.

CASTLEVANIA

This top platformer from Konami was rated highly in STC recently. It's similar in fashion to Shinobi, but features better gameplay. The plot involves one of

BATMAN RETURNS

Batman Returns, the CD version of the Batman film, proved to be a very decent game with a great car racing

stage. If the Joker is proving himself to be anything but, if the Riddler is just too puzzling, or if you'd rather not pick up the Penguin, fear not as STC is here to help. We've found a great cheat enabling you to advance a level and all you need do is press a few keys.

Make your way to the options screen and set it to the driving game. Press and hold down Left and n B on the joystick. Go to the difficulty level option and press and hold Left and then press B. Repeat these key presses on each of the seven options, from top to bottom. If done correctly you'll hear a small ringing noise. Now when playing the game all you have to do is press C and you'll advance a stage. Bat-astic!

Castlevania

SONIC 3

The latest instalment of the spiky one sees him once again confronting the evil Doctor Robotnik in his biggest and best adventure yet. This new game saw Sonic go snow-boarding and taking part in a brilliant new 3D

Sonic 3

special stage incorporating a massive rotating ball. If you're having difficulty getting onto the later levels, you'll be happy to know that at last we've found the Sonic 3 level select cheat.

To activate the level select, wait until the big Sega logo at the start of the game starts to disintegrate and the big blue Sonic zooms out of the screen. Quickly press Up, Up, Down, Down, Up, Up, Up and Up on the joystick; this has to be

done quickly in order to work you'll hear a noise as soon as it's activated. Once you're back onto the screen with Status and Options displayed, press Down and you'll see Sound Test. Enter this and you've finally reached the cheat screen where you can take Sonic to any level. Yipee!

ECCO THE DOLPHIN 2

The famous blue dolphin returns in the enhanced CD version of the best-selling cartridge game. Here's a cheat that reveals a hidden options screen giving access to all sorts of goodies.

To access the screen, pause the game half-way through a turn while Ecco is facing you, then press Right, B, C, B, C, Down, C and Up on the joystick. If this is done correctly the hidden options screen will appear. If not, just try again.

Dust Busting

Dear STC,

I was wondering if you have any plans to produce special binders or covers in which to put STC copies. These would be especially useful in preventing my mum putting dirty fingerprints on my collection when she's hoovering my room. Darren Mills, Canterbury, Kent. MD owner, Sonic Water Fun Game Winner.

There are no plans as yet, Darren, but you could try washing your hands after you've got up off your hune derriere and hoovered your own room! This way your mum won't have dirty fingerprints.

Megadroid impersonating the hunes- who-think-they're-in-charge!
Lauren Hughes, Knottingley.
Sonic Water Fun Game Winner.

Oh, stop whinging Adrian! Just as you're entitled to your opinion, so are the hunes who review the games in STC.

Amy Fire

Dear STC,

The only thing I don't like about the Sonic stories is Amy Rose! I can't understand why Sonic lets her get away with annoying him all the time. It seems obvious to me that he doesn't like her. Why doesn't he just get rid of her?

Michael Siddique, London (please send full address details). MD owner.

Sonic Water Fun Game Winner.

So, there's a soft side to this tough, badnik-busting hedgehog. Anything wrong with that Michael?

Knuckles cracks STC from issue James Slater, Lowestoft, Suffolk. MS owner. Sonic Water Fun Game Winner.

Cracking Knuckles

Dear STC,

Back in STC 18 you mentioned that Knuckles would be making his first appearance. However, we've still not heard sight nor sound of him. Please tell me why.

Duncan Edwards, Heole, Cheshire. MS owner. Sonic Water Fun Game Winner.

Well Dunc, it was an unconscious ploy to keep you all in suspense - and it worked! However, we can reveal that Knuckles (who has sneaked into the Sonic Summer Special - on sale now), will be making an impact in STC 32, so take cover! Meanwhile, hope you like Boone Slater's pic of Knuckles on this page.
